SEP 2026

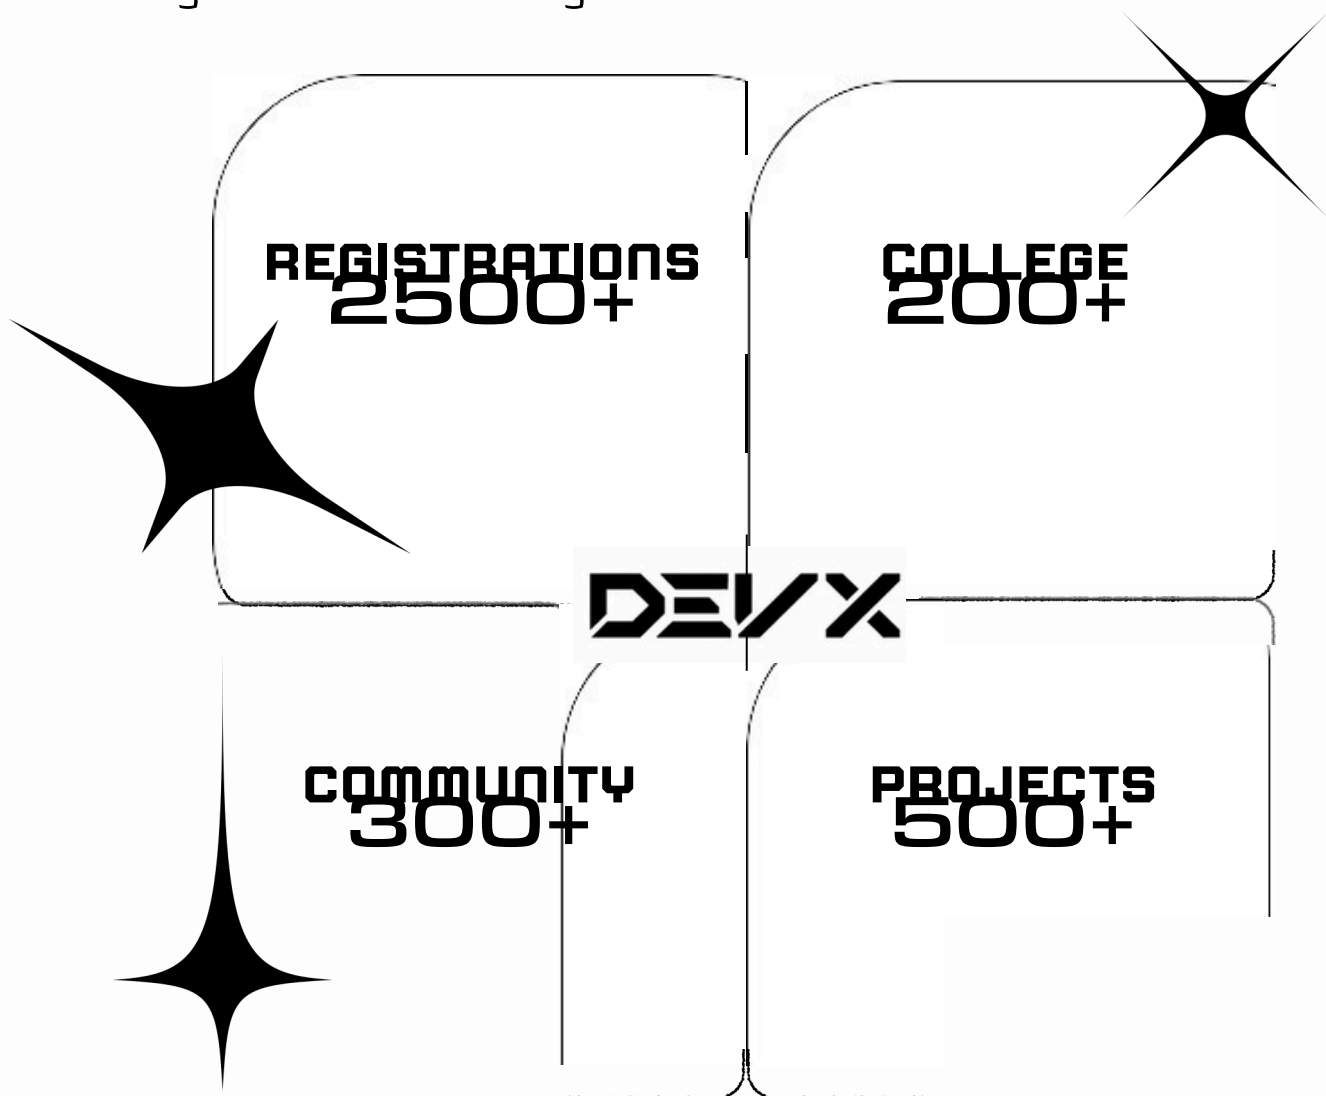

DevX is the annual spring fest and tech summit organized by GDG on Campus TIU

The community has been active since 2018 and focuses on peer learning, hands-on sessions, and practical exposure to technology.

It regularly conducts sessions in:

- AI and Machine Learning
- Web Development
- Cybersecurity
- Android Development
- DevOps and Blockchain

DevX brings together students, speakers, and professionals to share knowledge and build meaningful connections.

ABOUT HACKRIT

Hackrit is the official hackathon of DevX, organized by GDG on Campus TIU. It is designed as a focused space for students to apply their skills and work on real problems through building.

Bringing together participants from diverse technical backgrounds, Hackrit encourages collaboration across domains such as AI and Machine Learning, Web Development, Cybersecurity, and more. Teams work within a limited timeframe to develop practical solutions, turning ideas into functional prototypes.

As part of the larger DevX ecosystem, Hackrit benefits from an active and growing tech community that regularly engages in workshops, study jams, and technical sessions. This creates an environment where participants are not only competing, but also learning, exploring, and building alongside like-minded individuals.

The hackathon is built around hands-on learning and execution.

Participants are expected to think critically, experiment with technologies, and approach problems with a solution-driven mindset rather than just theoretical understanding.

Hackrit aims to provide a platform where emerging developers can challenge themselves, gain real experience, and contribute to meaningful problem-solving through technology.

WHY SPONSOR US?

1 Access to Skilled Participants

Connect with students who are already working on real projects and actively building their skills.

2 Product Exposure

Introduce your tools, platforms, or services directly to participants during the hackathon.

3 Brand Visibility

Your brand will be visible across event promotions, venue branding, and digital platforms.

4 Direct Interaction

Engage with participants through sessions, stalls, or problem statements.

Give it a whirl

Be a part of the Greater Whole

Be a part of Hackrit
Be a part of something big

Be a part of Hackrit
We adhere to our promises

BE
COME

OUR TITLE
SPONSOR

EXCLUSIVE

MAXIMUM
VISIBILITY

TITLE SPONSOR

The Title Sponsor's brand will be integrated into Hackrit, with visibility across stage screens, event creatives, merchandise, and digital promotions throughout the event.

The Title Sponsor will receive a dedicated opportunity to present their product or platform, along with a speaking slot during the opening ceremony and on-ground interaction through a stall setup.

A dedicated problem statement provided by the Title Sponsor will be included in the hackathon, allowing participants to build solutions around their use case.

The Title Sponsor will have direct access to a focused group of developers and students actively building projects, enabling meaningful engagement with skilled participants.
